RE: Chemical Recovery Systems Site, Elyria, OH

Ohio Polychemical Co. – EPA Letter dated March 2, 2001  
Yenkin Majestic Industries – EPA Letter dated March 2, 2001

March 8, 2001

Dear Ms. Sheppard-Johnson:

We are in receipt of a notice sent from your office to the above-named companies relating to the Chemical Recovery Systems (“CRS”) site in Elyria, OH. The former Ohio Polychemical Co. is a division of Yenkin-Majestic Paint Corporation, which your letter appears to identify as Yenkin Majestic Industries.

In accordance with the ten (10) and thirty (30) day time frames referenced in your letters, this letter is sent to be timely responsive. Please direct any future correspondence on this matter relating to these two entities to me at the address indicated here.

Your documents indicate that CRS discontinued operations twenty (20) years ago. We have inquired within our company and have no information or records which reflect that business was done with this facility.

If further attention would be needed here, I respectfully request documentation of relevant information you have which would identify business with CRS involving our company in connection with your letter. Thank you.

Very truly yours,

Merom Brachman  
President, Yenkin-Majestic Paint Corporation
